Instructions for Completing the Income Section of the Deferral Application for Senior Citizens and Disabled Persons

To avoid delays in processing your application, remember to answer all questions, include all of the required documentation, and sign the form. Anyone who has an ownership interest in the property must sign the form.

Leave the "County Use Only" areas blank.

You must include documentation showing you meet the age or disability requirement. Instructions for Completing the Income Section

How is disposable income calculated?

The Legislature gave "disposable income" a specific definition. According to RCW 84.36.383(5), "disposable income" is adjusted gross income, as defined in the federal internal revenue code, plus all of the following that were not included in, or were deducted from, adjusted gross income:

- ♦ Capital gains, other than a gain on the sale of a principal residence that is reinvested in a new principal residence;
- ♦ Amounts deducted for losses or depreciation;
- ♦ Pensions and annuities (annuities also include income from unemployment, disability, and welfare);
- ♦ Social Security Act and railroad retirement benefits;
- ♦ Military pay and benefits other than attendant-care and medical-aid payments;
- ♦ Veterans pay and benefits other than attendant-care, medical-aid payments, veterans' disability benefits, and dependency and indemnity compensation; and
- ♦ Dividend receipts and interest received on state and municipal bonds.
- ♦ **This income is included in "disposable income" even when it is not taxable for IRS purposes.**

Important: Include all income sources and amounts received by you, your spouse/domestic partner, and any co-tenants during the application/assessment year (the year before the tax is due). If you report income that is very low or zero, attach documentation showing how you meet your daily living expenses. Use **Line K** to report any income not reported on your tax return and not listed on Lines A through J.

What if my income changed in mid-year?

If your income was substantially reduced (or increased) for at least two months before the end of the year and you expect that change in income to continue indefinitely, you can use your new average monthly income to estimate your annual income. Calculate your income by multiplying your new average monthly income (during the months after the change occurred) by twelve.

Example: You retired in September and your monthly income was reduced from \$3,500 to \$1,000 beginning in October. Multiply \$1,000 x 12 to estimate your new annual income.

- ♦ **Report this amount on Line K** and do not complete Lines A through J. Provide documentation that shows your new monthly income and when the change occurred.

Line K – Report all household income not already included or discussed on Lines A through J. Include foreign income not reported on your federal tax return and income contributed by other household members not shown in Part 1. Provide the source and amount of the income.

Lines L - O - What is combined disposable income?

RCW 84.36.383(4) defines "combined disposable income" as your disposable income plus the disposable income of your spouse or domestic partner and any co-tenants, minus amounts paid by you or your spouse or domestic partner for:

- ♦ Prescription drugs;
- ♦ Treatment or care of either person in the home or in a nursing home, boarding home, or adult family home; and
- ♦ Health care insurance premiums for Medicare. (At this time, other types of insurance premiums are not an allowable deduction.)

Care or treatment in your home means medical treatment or care received in the home, including physical therapy. You can also deduct costs for necessities such as oxygen, special needs furniture, attendant-care, light housekeeping tasks, meals-on-wheels, life alert, and other services that are part of a necessary or appropriate in-home service.

Special instructions for Line P.

If you had adjustments to your income for any of the following and you did not file an IRS return, report these amounts on Line P and include the IRS form or worksheet you used to calculate the amount of the adjustment.

- ♦ Certain business expenses for teachers, reservists, performing artists, and fee-basis government officials
- ♦ Self-employed health insurance or contributions to pension, profit-sharing, or annuity plans
- ♦ Health savings account deductions
- ♦ Moving expenses
- ♦ IRA deduction
- ♦ Alimony paid
- ♦ Student loan interest, tuition, and fees deduction
- ♦ Domestic products activities deduction
